Ver-Mac's LIGHT TOWER 1000 is a compact, battery-powered portable light tower. It features Ver-Mac's exclusive Nightbrite Technology, which provides a brighter, more environmentally friendly and cost-effective lighting source. Equipped with high-performance lithium batteries and fast-charging system, the LIGHT TOWER 1000 will perform night after night.

**FEATURES AND BENEFITS**

**SHORT-DURATION LIGHTING SOLUTION**
Can illuminate from 16-24 hours. Less than 3 hours is required to fully charge the system

**NIGHTBRITE TECHNOLOGY**
Innovative exclusive LED fixture design provides increased brightness using less power consumption, compared to other LED lamps on the market. It provides targeted lighting with minimal light pollution and reduced glare

**ADJUSTABLE LIGHT SETTINGS**
Adjust the brightness of the light to meet your lighting and autonomy needs

**PHOTOCCELL**
Detects light and automatically shut off the unit

**COMPACT DESIGN**
Tripod legs quickly fold for easy set up and storage. Telescoping mast quickly raises to several heights up to 14’. Easily roll or carry it to the desired location and turn it on.

**HIGH-PERFORMANCE BATTERIES**
Maintenance-free high-powered lithium batteries for long-lasting power with years of repetitive operation.

**FAST-CHARGING SYSTEM**
Charges the batteries in less than 3 hours. Simply plug into an outlet and the LED indicator light will tell you when it is charged

**LOCKABLE UNIT**
Secure your unit by adding a padlock to the mast, legs and control switch

- **NO FUEL**
- **NO NOISE**
- **NO SMELL**
- **NO MAINTENANCE**
LIGHTING APPLICATIONS
- Construction sites
- Special events
- Emergency response team’s support
- Parking lots

DIMENSIONS & WEIGHT
- Operating height: 172 in. (4382 mm)
- Operating presence: 79 in. (1999 mm)
- Travelling length: 21 in. (543 mm)
- Travelling width: 21 in. (533 mm)
- Travelling height: 70 in. (1791 mm)
- Weight (approx.): 130 lb (59 kg)

GENERAL SPECIFICATIONS
- LED lamp: 1 adjustable fixture
- Luminosity: up to 10K lumens
- Typical operation time: 16h-24h
- Typical charge time: 2.5h (full charge)
- Batteries: 44.4 A/h at 25.6V
- Battery charger: 18 amp (600 watts)
- Mast: 14 feet
- 3 legs for trolley stabilization

WARRANTY
- 1 year on complete unit
- 2 years on electronic components manufactured by Ver-Mac
